

THE ASME BIOENGINEERING
DIVISION ANNOUNCES THE

Edward Grood Interdisciplinary Team Science Medal in Bioengineering

The Bioengineering Division is currently accepting nominations for a new ASME Award, the Edward Grood Interdisciplinary Team Science Medal in Bioengineering. The award recognizes a team of scientists and engineers who have collaboratively carried out impactful interdisciplinary science and engineering research in the bioengineering field.

The nomination deadline for the inaugural award, which will be presented next year, is December 1. The award consists of a \$1,000, a vermeil medal, a certificate, and a \$750 travel allowance.

To download a nomination form and instructions on how to complete the form, visit bit.ly/ASMEGroodMedal. The completed nomination should be emailed to Michele Grimm, the Edward Grood Interdisciplinary Team Science Medal in Bioengineering chair, at mgrimm@msu.edu.
